

Undergraduate Research Certificate Fact Sheet for Advisors:

What is the Undergraduate Research Certificate?

It is a 12-credit certificate available to undergraduate students to recognize excellence in undergraduate research.

What are the requirements for receiving the Undergraduate Research Certificate?

Degree-seeking undergraduate students may earn the Research Certificate by completing the following requirements.

The requirements include **12 credit hours of specific coursework and a dissemination presentation.**

1. **Research Intensive:** At least 3 credit hours of Research-Intensive coursework and/or Directed Independent Research (or Honors thesis or courses with research compacts)
2. **Exposure:** Up to 6 credit hours of IFP or Honors Core coursework from the approved Research Exposure list [HERE](#)
3. **Skill-Building:** Up to 3 credit hours of Research Skill-Building coursework from the approved list [HERE](#)
4. **Dissemination:** Presentation at one of the FAU Undergraduate Research Symposia or an appropriate discipline-specific forum approved by the University Undergraduate Research Committee.

Note: For the *Senior Engineering Design Showcase*, students will receive credit for the dissemination of their research upon successful completion of one of the following courses: CGN 4804C, EGN 4952C, EOC 4804L or EML 4551 with a minimum grade of "C." (Effective spring 2023.)

Course type descriptions:

- **Research Intensive Courses:** Research intensive or RI is a formal university-wide **designation for courses** in which undergraduates actively engage in intensive-level research. All RI designated courses can be identified with the "RI" in the title of the course. Updated lists of [RI Designated courses](#) can be found [HERE](#).
- **Directed Independent Research:** credit bearing options (zero to four credits) for tracking faculty-mentored research. DIR courses fall within the "900 numbering system").
- **Dissemination Presentation:** For internal symposia presenters, students will register for a **zero credit IDS 4914 "Undergraduate Research Forum" course**. There will be separate course sections for students who present at the Boca, Broward, Jupiter symposia, and other research symposia/conferences/exhibitions external to FAU.

Note: **Students who have already applied for graduation**, will have to submit a late registration form ([here](#)) to be able to register for IDS 4914. Once submitted, please coordinate with your academic advisor.

Once the Drop/Add period has passed for a particular semester and/or mini-term, students may only add a course through the submission of a Late Add form.

More information for dates of registration for each part of term can be found on our Registration Schedule at <http://www.fau.edu/registrar/registration/schedule.php>

Other Stipulations:

- Courses with S/U grading may count toward the Certificate with a grade of Satisfactory, but for courses with standard grading, students must complete coursework with a minimum grade of "C" or better.
- A maximum of 3 credits of transfer coursework can be applied to the Certificate.
- Course substitutions will be reviewed by the [University Undergraduate Research Curriculum Committee](#) on a case-by-case basis using this [form](#).

Petition for Waiver or Substitution for Undergraduate Research Certificate Requirements

Undergraduate Research Certificate Substitution/Waiver Form

NOTE: In addition to filling out this form, you are required to provide a copy of the DARS Undergraduate Research Certificate audit, AND any appropriate documentation to support your petition/waiver. Appropriate documentation could include a course syllabus, research conference agenda, proof of attendance, faculty support letter for DIS, course proposed for substitution, etc. These can be attached at the end of the petition form.

Hi, Dan. When you submit this form, the owner will see your name and email address.

1. Student Name:

2. Student Z-Number:

To whom should you recommend the Undergraduate Research Certificate?

- ANY undergraduate student who has taken an RI or DIR course, expressed interest in research or pursuing graduate studies, and wishes to increase the probability of success after graduation.

What do students need to know about the benefits of an Undergraduate Research Certificate?

- The Undergraduate Research Certificate **appears on a student's transcript** so employers and graduate school admission officials will notice our students' skills and achievements.
- Employers and graduate programs seek proof of a student's capabilities to investigate and to solve problems using critical thinking and analytical skills, to work effectively in diverse groups, to write and present effectively, to present and defend recommendations, and to act ethically.
- The Undergraduate Research Certificate can open doors to graduate school acceptance and can provide talking points for students about research projects and accomplishments while attending FAU.

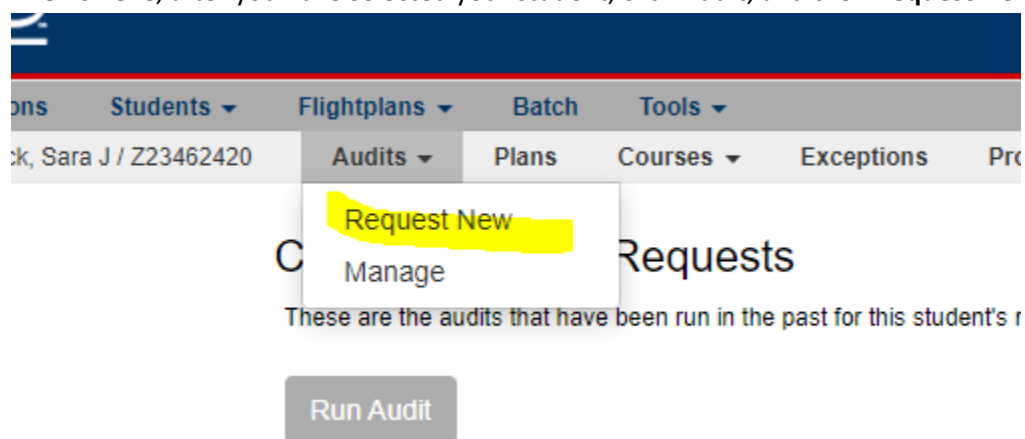

How do I ensure that the student's academic record reflects the pursuit of the Undergraduate Research Certificate?

- When a student notifies you that they wish to pursue the Undergraduate Research Certificate, you will submit a Plan of Study Change request through OnBase just like any other certificate.

How will I know if a student satisfies the criteria for an Undergraduate Research Certificate?

- The standard end-of-semester validation for conferral of the earned credential will be conducted by the student's home college. The student advisor will certify completion of requirements, then he/she will notify the Registrar's Office therefore the certificate can be awarded
- The student's Undergraduate Research Certificate should be conferred upon the student completing their last course applicable to the certificate. The conferral does not need to wait for the student's completion of their undergraduate degree.
- A DARS Audit report is established for advisors and students to run.

What do I do with a student who requests a substitution for the requirements above?

- OURI has a substitution [form](#) available on the website for students to complete who are requesting alternative credits or other substitutions.
- Course substitutions will be reviewed by the [University Undergraduate Research Curriculum Committee](#) on a case-by-case basis.

Where do we go for questions?

Contact OURI@fau.edu and your [College Faculty Liaison](#) with any questions.
